

Wire Bar Conveyor

# COOLING CONVEYOR SYSTEM

MISUZU KOKI CO., LTD.

- Proposing a system to gently cool heated processed food while transporting.
- Quickly propose optimal layout for existing plant space.
- We can propose the optimum system combining endless SEC, DLC, EC, Omni-conveyor and conveyors.

Cooling Tunnel Conveyor

# COOLING CONVEYOR SYSTEM

## EC Endless Conveyor Features

- Can be installed completely overhead, allowing for the effective use of floor space.
- A variety of layouts are possible to fit factory space, making use of wasted ceiling space.
- Belt structured as a series of grids, meaning that there is no connection with the conveyor, reducing damage to the product and miss-alignment.
- We guarantee long life and low maintenance for 1 belt and 1 tower.

## Omni Conveyor Features

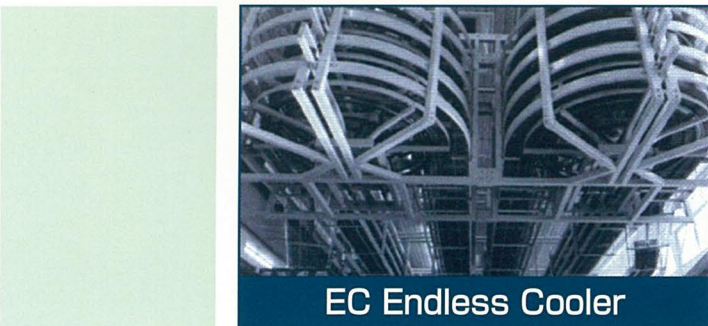

- **No misalignment or damage to products**
  - Endless type, making conventional conveyor crossing devices unnecessary, reducing damage to the product and miss-alignment.
- **Flexible layout**
  - With the endless form, not only can the belt have up and down curves, but can be freely laid out in a 3D layout up and down, making effective use of a limited space.

DLC Drumless Conveyor

SEC Spiral Endless Conveyor

EC Endless Cooler

Omni Conveyor
